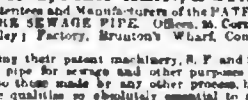
IMPROVED DRAINAGE.
BY ROYAL LETTERS PATENT.



STANDING, FRANKLIN, & STANDING, Sole Patentees and Manufacturers of the PATENT GLAZED STONE WARE SEWAGE PIPE. Offices, 26, Cornhill, entrance in Change-alley; Factory, Brunton's Wharf, Commercial-road, Limehouse.
By employing their patent machinery, S. F. and S. are enabled to produce a pipe for sewage and other purposes in every way far superior to those made by any other process, but more especially in those qualities so absolutely essential to a perfect, and cleanly mode of drainage. From the great and uniform amount of pressure, and peculiar construction of the machinery (allowing the air to escape), used in manufacturing, their pipes are entirely free from air bubbles, proving their greater strength, durability, and entirely preventing the contents percolating through; they are much smoother on the inside, insuring a perfect passage for the sewage, and preventing any deposit.
STRAIGHT TUBES WITH SOCKET JOINTS, BENDS, JUNCTIONS, TRAPS, CLOSET PANS, Water, Gas, and Chemical Pipes, Architectural Ornaments, Vases, Chimney Pots, &c. Shipping and foreign orders executed to any extent.
Specimens may be seen at the office, 26, Cornhill, where prices, &c., may be obtained, and licenses granted for the use of the patent machine.

IMPORTANT SANITARY IMPROVEMENT.—F. GOTTO'S PATENT SELF-DISCHARGING EFFLUVIA TRAPS have now been adopted in many large Towns. It has been found the best preventative for the escape of noxious effluvia, and combines simplicity of construction and economy with its many other recommendations.

THE TRAP IS THE ACT OF DISCHARGING ITS CONTENTS.

Manufactured of different sizes for street gratings, forcing, slaughter-houses, and private dwellings, from 12s. to 3l. 6d. each.
